

Vedic Eco Village

INVESTMENTS

1 rootstock = 1 LB Root Crop = \$1 canadian

Seeds & Produce

Our staple crops are potato, beet, carrot, zucchini, squash, lettuce, kale, cauliflower, cabbage, broccoli, corn, cucumber and herbs. We now save seeds in our root cellar.

- produce box for 4 weeks (CSA) 100
- seed & tool investment 500
- new underground seed bank 2,000

Projects to Kick Start

Diverse projects need start up investments in tools, materials and builder wages. Land for projects is mapped & ready to build on.

- Outdoor Kitchen
- Goshala Cave & Foundation
- Guest Cabins & Washroom
- Nature Cure Clinic & Health Center
- Garden & Orchard Expansion
- Fencing Colony & Road Making
- Fencing cow grazing areas

Prasadam for Workers & Guests

We need a dedicated cook to provide meals for workers and guests. Cook lives, works and serves in main cabin. Liaison with Harvesters and root cellar stocks.

- supplies in addition to our produce 600 / month
- stipend (food & shelter provided) 400 / month

Energy

Solar & hydro provide our power needs, except transport. We are transitioning from petrol based machines and vehicles.

- Biodiesel crop (500 liters) 2,000
- Oil press and facility 2,000
- Biodiesel engine for mill 500
- Biodiesel Engine conversion 500

Traditional Technologies

- Decorticator for hempcrete
- Hemp & flax fiber processing
- Ox cart & brake

STRUCTURES

1 rootstock = 1 LB Root Crop = \$1 canadian

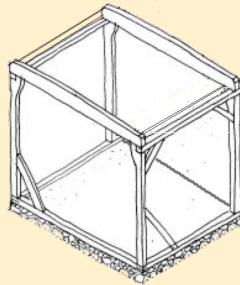

Wood Structures

Made with locally milled trees thinned from overgrown forests. Structure is moveable.

- ✓ 10 x10 x10 foot - not a permanent home
- ✓ building code compliant
- ✓ storage & parking only
- ✓ doorway & earth floor

1,700

walls, roof, insulation & floor
extra add-ons >

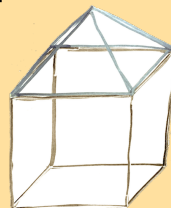

Add-ons

- Walls made with cloth 5 /square foot
- Walls made with milled boards 8 /sf
- Wall insulation: straw, clay & cob 5 /sf
- Roof made with milled boards
- Cob floor & earthen finish 5 /sf
- Mass Heater and vent 500
- Cob bench/bed 400
- Living roof clay, soil, seeds 400
- Window or door 100 each
- Walipini greenhouse 2,000

Cube & Reciprocal or Pyramid Roof

A wood roof with opening is joined to the top of the cube. A staircase joins the two. The loft serves as a temple and meditation space.

2,300

Finished Cube & Living Roof

Cube with door, windows and tipi style roof made of clay and soil.

Walls made with milled boards
Walls insulated with straw, clay & cob

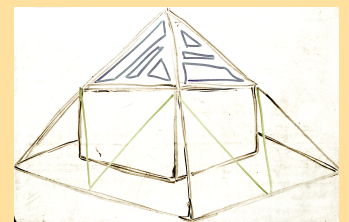

3,000

Passive Solar Cube

Cube under a larger pyramid. Wood poles and boards from our mill provide slanted retaining wall around the cube. For optimal insulation, we bury the cube structure up to the top pyramid, leaving south face exposed to sun for greenhouse effect

5,000

Custom Cube

Built to your specifications. All our designs begin with a basic cube.
